PRODUCT OVERVIEW

The universal AX-ADDCAM, (sold separately), is used to integrate multiple cameras to the factory radio or add additional cameras with a factory camera and radio. The plug-n-play harnessing saves installers valuable time during the installation process and is designed for select vehicle applications, used with the AX-ADDCAM interface.

AX-ADDCAM

- Fits Universal
- Add-On Multiple CAN Activated Cameras
- 4 camera inputs
- Programmable 12-volt 5-amp switched output (configurable through our AXCESSUPDATER PC)
- Vehicle Speed Sense input and output
- Programmable analog camera control wires (configurable through the AXCESSUPDATER PC)
- Micro "B" updatable
