## AX-SSO STOP/START OVERRIDE INTERFACE FOR FORD/CHRYSLER

**SALES 800-221-0932**

### PRODUCT OVERVIEW

This patent-pending interface is designed to automatically disengage the STOP/START engine feature on select Ford and Chrysler vehicles, which may be bothersome to some people. Now installers can offer drivers the option to override or re-engage this feature automatically, whether they have a factory or aftermarket radio installed. The vehicle type is configured through the AXXESSUPDATER PC and a simple 4-wire installation is done at the radio location.

- **Allows the override of the OE STOP/START feature**
- **If desired, STOP/START can be re-engaged**
- **Can be used with OE or aftermarket radios**
- **Configure vehicle type through AXXESSUPDATER PC**
- **Simple 4-wire installation at the radio location**
