INFINITE SERIES RGB BACKLIT LED LIGHTS

SALES 800-221-0932

PRODUCT OVERVIEW

Change your light color with the swipe of a finger! Heise's popular RGB lights are now available in RGB backlit dual row lightbars from 8 to 50 inches and a 3 inch cube style LED light, as part of the new Infinite Series. These lights offer pure white light with 16 million selectable colors as a backlight, controlled by a mobile app. The backlit RGB lights use the same HE-CBRGB controller as Heise's popular RGB accent lights, allowing the Infinite Series to be synchronized and controlled using a single mobile app.

**HE-CBRGB controller is sold separately and required for RGB functionality.*

3" RGB Backlit Cube Light

- Input voltage: 10-30V DC
- Wattage: 13W
- Raw lumens: 1,080
- Current consumption @ 13.8V: 0.9 Amps
