IBR146 SAE TOP POST BATTERY TERMINALS

SALES 386-257-2956

PRODUCT OVERVIEW

This convenient 2-pack of positive or negative battery terminal clamps allows installers to upgrade customers' battery terminals to add additional power and ground wiring. Each clamp has an OEM post adapter that can be mounted on the top or side for easy integration without modifying the OEM battery clamp.

Features:

- Can be top-mounted or side-mounted
- Splits connection to one 0GA/2GA/4GA output, one 4GA/8GA output, and power ring provision
- Machined brass construction for superior power transfer
- Large convex screws ensure reliable connections
- Silicone covers insulate electrical connections
- Corrosion-resistant satin chrome finish
