Volkswagen (with MIB platform)

HDMI and Camera Interface 2014–up*

*Visit AxxessInterfaces.com for up-to-date vehicle specific applications.

INTERFACE FEATURES
- Provides front and rear camera inputs to the factory radio
- Provides an HDMI input to the factory radio
- Micro “B” USB updatable

TABLE OF CONTENTS
- Connections to be made .......................................2
- Configuring the AX-AM-VW91 ...............................3
- Installing the AX-AM-VW91 ...................................4
- User guide ..............................................................5

TOOLS REQUIRED
- Wire cutter • Crimp tool • Solder gun • Tape
- Connectors (example: butt-connectors, bell caps, etc.)

CAUTION! All accessories, switches, climate controls panels, and especially air bag indicator lights must be connected before cycling the ignition. Also, do not remove the factory radio with the key in the on position, or while the vehicle is running.
• If installing a front/rear camera, connect the **Black** wire labeled “GND”, to the camera(s) ground wire.

• If installing a backup camera, connect the **Red** wire labeled “Reverse Camera 12v”, to the backup camera power wire.

• If installing a front camera, connect the **Red** wire labeled “Front Camera 12v”, to the front camera power wire.

• The **Red** wire labeled “Acc Power Output” is optional if a power source is required while a camera is active.

• If installing a backup camera, connect the RCA jack labeled “Reverse Camera Video Input” to the camera.

• If installing a front camera, connect the RCA jack labeled “Front Camera Video Input” to the camera.

• If adding an HDMI input to the factory radio, connect an HDMI cable (Axxess part number AX-HDCABLE, sold separately), to the port on the AX-AM-VW91 labeled “HDMI IN”.

(Connections Diagram)
Dip switch settings

Remove the access door located on the top of the AX-AM-VW91 interface to access the dip switches.

**Dip 1**
If the vehicle is equipped with a factory backup camera:  **On:** Yes  **Off:** No

**Dip 2**
If the vehicle has an aftermarket front camera:  **On:** Yes  **Off:** No

**Dip 3**
If the vehicle has an aftermarket backup camera:  **On:** Yes  **Off:** No

**Dips 4 & 5**
- 5.8-inch screen:  
  Dip 4 Off - Dip 5 N/A
- 6.5-inch or higher screen:  
  Dip 4 On - Dip 5 N/A
• Remove the main connector from the radio, then connect the male plug from the AX-AM-VW91 harness into the radio.

• Connect the factory male factory connector into the female plug from the AX-AM-VW91 harness.

• Connect the AX-AM-VW91 harness into the AX-AM-VW91 interface.

• Remove the LVDS (video) cable from the radio, then connect it to the AX-AM-VW91 interface (LVDS OUT). (Figure A)

  Note: This factory connector may be gray or yellow.

• Connect the 6-pin to 4-pin LVDS (video) cable into the radio, and then into the AX-AM-VW91 interface (LVDS IN).

• Connect the 10-pin harness with RCA jacks into the AX-AM-VW91 interface.

(Figure A)
**Button Configuration**

- The buttons on the factory radio, will be used to operate the AX-AM-VW91.

**HDMI access**

- Select AUX-IN as a source from the factory radio.
- Hold the “MEDIA” button for 2 seconds to switch between the factory screen and the AX-AM-VW91 screen.
- Hold the “MENU” button (or press the top right corner of the touchscreen) to disable the video-in-motion warning message.

**Front camera access**

- Ensure dip switch 2 is selected to “ON”.
- Hold the “MENU” button for 2 seconds to activate the front camera.

**Rear camera access**

- The backup camera will automatically activate while the vehicle is in reverse gear.
- Deselecting the reverse gear will activate the front camera, if installed and dip switch 2 is selected to “ON”.

  **Note:** This camera takes priority over HDMI mode, and front camera mode. But will not deactivate the front camera. Press the top right corner of the touchscreen, or drive over 10 mph, to cancel front camera mode.

**View Version Number**

- Hold the “MEDIA” button for 8 seconds to enter the firmware information screen.
