**INTERFACE COMPONENTS**
- AXSSO-FD interface
- AXSSO-FD harness (qty. 2)

**TOOLS & INSTALLATION ACCESSORIES REQUIRED**
- Zip ties • Cutters (for zip ties)
- Micro-B USB cable
  (Axxess part number AXUSB-MCBL)

INTRODUCTION
The AXSSO-FD is designed to disengage the STOP/START feature of the vehicle, and keep that feature disengaged even after the key has been cycled. The AXSSO-FD will work with either an aftermarket radio, or a factory radio. A simple plug n’ play installation is all that is required to install the device in the vehicle, and programming through a Windows 10 computer via the Axxess Updater software program.
1. Download and install the Axxess Updater software program from: axxessinterfaces.com/resources/updater-software

2. Connect the micro-B USB cable (sold separately) to the computer and AXSSO-FD interface. Open the Axxess Updater software program and wait until the word Ready is shown in the bottom left of the screen. Select Stop / Start. (Figure A)

3. On the next screen that opens, select the year, make, and model of the vehicle, then press Program Interface. (Figure B)

4. When the Configuration Successful box pops up, the programming process is complete. (Figure C)

Continue to Installation
These vehicles will connect to the wiring harness located at the climate control location.

**From the wiring harness in the vehicle behind the radio:**
1. Unplug the connector behind the climate control.
2. Plug the AXSSO-FD harness in between the climate control and climate control harness.
3. Plug the AXSSO-FD harness into the AXSSO-FD interface.

These vehicles will connect at the OBD2 connector, inside the driver’s side dashboard.

**Ford**
- Focus 2016-Up
- Escape 2017-Up

**From the OBD connector in the dash**
1. Unclip the factory OBD connector from the dash.
2. Plug the AXSSO-FD harness to the OBD connector.
3. Clip in the AXSSO-FD harness to the dash.
4. Plug the AXSSO-FD harness into the AXSSO-FD interface.
5. Zip tie the harness securely under the dash to avoid it from coming down.
Re-engaging the STOP/START feature

1. Press the factory STOP/START button to re-engage the STOP/START feature.
