

MPS-65CSRGB CAN SPEAKERS

 SALES 800-221-0932

PRODUCT OVERVIEW

The MPS-65CSRGB speakers are designed for whatever the powersports customer can throw at it. The rugged, UV protected, high temp ABS provides a durable housing by employing a dual wall design. The 6.5" speakers are polypropylene and the tweeters are PEI (Polyetherimide) so they can handle getting wet, with a IP rating of IPX6, but still perform like they were intended. A passive 3" radiator provides more bass response to give the speakers a more robust sound. As an added feature the MPS-65CSRGB includes RGB lighting that can be connected to Heise® RGB controllers. To make the speakers more versatile, they come with two mounting clamps with rubber inserts (2" and 1-3/4") and two separate rubber inserts (1-7/8" and 1-1/2") so that there are 4 mounting size options. Also the speakers can be rotated so they can be positioned optimally for the best sound.

MPS-65CSRGB UNIVERSAL CAN SPEAKERS

▶ 6.5"

- + Housing: Marine Grade, UV treated, molded, High Temp ABS. Dual wall designed for strength and rigidity
- + Woofer: 6.5" Polypropylene designed for use in wet locations, 25mm voice coil, 11 oz magnet with 3" passive radiator for extended bass response
- + Tweeter: 20mm PEI (Polyetherimide) bridge mounted into grill
- + 2" and 1-3/4" universal clamps with 2", 1 7/8", 1-3/4", and 1-1/2" rubber inserts, rotational mounting base for optimum speaker placement
- + Waterproof RGB lighting on back of tweeter reflects off cone of woofer
- + 12' of flexible over-jacketed OFC copper wire with waterproof connector. Mating waterproof connector breaks out to (2) 18 AWG speaker wires and a Micro DIN connector with 22 AWG RGB wire (designed to be used with Heise® RGB controllers)
- + Water Resistance: IPX6
- + Impedance: 4 ohms
- + Crossover: 6db passive
- + Freq response: 60Hz to 20 KHz
- + SPL: 90 db
- + Power handling: RMS – 75 watts, Peak – 150 watts
- + Sold as a pair
- + Warranty: 1 Year
