

# POWER DISTRIBUTION BOXES

CELEBRATING  
**75**  
YEARS  
OF INNOVATION

**SPY-DB5** 5-Way Power Distribution Box (5 amp)  
**SPY-DB** 9-Way Power Distribution Box (10 amp)  
**SPY-DB** 18-Way Power Distribution Box (20 amp)

This box gives installers the most efficient way to manage power distribution for cameras with removable power connections that make wiring the cameras easier. A lockable security door protects from tampering. This improved design now has a status light indicator for both AC and DC power. The status LED indicator lets you know when the AC power is connected and the volt power supply is on.

Lockable door with  
(2) keys included

Status LED is on when AC power is  
connected & 12 volt power  
supply is on / LED is off when there  
is no power from the power supply

- Easily manage power for cameras
- Box plugs into standard power outlet
- 110 volt to 12 volt power supply
- 1 amp PCT fuses protect cameras
- Removable power connections make wiring cameras easier
- Knockouts on back of power supply box
