TE-CCWRM

COMMERCIAL WIRELESS PORTABLE CAMERA

SALES 800-221-0932

PRODUCT OVERVIEW

Stream video wirelessly with a magnetically mounted rechargeable camera. For commercial truck drivers that do not own their trailer, this is an ideal solution for quick placement onto any metal surface. It can quickly be added and removed to provide a wireless video feed to a video monitor (sold separately), instantly increasing their visibility and safety on the road. The TE-CCWRM has a strong 2.4Ghz signal for 394 feet of wireless range and a rechargeable lithium battery providing 12 hours of operation during the daytime. Commercial drivers will have a 120-degree view of their surroundings with IR LEDs for clearer nighttime viewing. This solution is recommended for use with the iBEAM TE-4WCM wireless monitor for video, which supports up to four video channels. The TE-CCWRM has a one year warranty.
