TE-JEEP-BU-1 BACKUP CAMERA FITS JEEP WRANGLER 2007-2018 (2018 JK)

 SALES 386-257-2956

Spoke pattern needed to work with
TE-JPKT and TE-JEEP-BU-1.

PRODUCT OVERVIEW

This kit is designed to be a backup camera solution for Jeep Wranglers that are factory equipped with an in-dash display. The Axxess AX-ADDCAM with the vehicle specific harness allows for seamless integration into the factory display and detects when the reverse gear has been engaged. The AX-ADDCAM powers and activates the included iBEAM vehicle specific camera solution, and displays the image with parking guidelines on the factory display. Improve driver visibility, confidence, and safety while retaining a factory look with the TE-JEEP-BU-1 kit.

- AX-ADDCAM and vehicle specific harness included
- Jeep bracket included
- Adds 4 camera inputs to OEM screen
- CAN controlled triggers
- 110 degree viewing angle on the camera
- IP67 - camera
- Must use Axxess Updater program to program interface. See Axxessinterfaces.com/resources/updater-software for details
