PRODUCT OVERVIEW

The iBeam TE-NAVHC for the Nissan Navara and the TE-THH for the Toyota Hilux expands the line into applications for the international market. Both are replacement tailgate handles that are designed to replicate the factory look and feel of the original handles but with the added convenience of a rearview camera. Both include camera housings that have an IP69 water resistant rating and defeatable parking lines. Also allows for a clear visual even in the dark with a 0.1 lux rating and 400 TV lines of resolution. Be able to see a complete visual of the rear of the vehicle with 168 degrees of diagonal view angle.

- CMOS 1/4 sensor
- Resolution: 400 TV lines
- Field of view: Diagonal 168, Horizontal 136, vertical 100
- 0.1 Lux
- IP69
- Defeatable parking lines
- 26' of extension cable
- 3 Year warranty
